Professional Summary

B.Tech CS graduate skilled in full stack development. Hands-on experience in building and deploying end-to-end applications and integrating AI models through 4 industry internships. Proficient in TypeScript, Python, Node.js and React.

Skills

Languages: TypeScript, JavaScript, Python

Frontend: React

Backend: Node.js (Express, Fastify), FastAPI

Databases: PostgreSQL, MongoDB, Redis

DevOps & Tools: Docker, GitHub Actions, Git, GitHub

Experience

Full Stack Developer Intern — Inbox Infotech Pvt. Ltd.

Jan 2026 — Jun 2026

- Contributed to the development and maintenance of a live mobile app, HelloQ, used by 500+ real users.
- Developed REST APIs featuring JWT authentication, role-based authorization, API rate limiting, type-safety, schema validation, API docs, testing and modular architecture.
- Created a Location-based Attendance Tracker prototype based on client requirements, which showcased during presentation to demonstrate the proposed solution.
- Deployed applications on cloud providers, configured DNS and reverse proxy, and implemented CI/CD pipelines.

Data Science Intern — Amdox Technologies

Dec 2025 — Jan 2026

- Built an AI-powered employee mood analysis and task recommendation system using Python, Hugging Face Transformers, SQLAlchemy, and Streamlit; featuring NLP-based emotion classification, rule-based task recommendation, and burnout alerts.

Full Stack Developer Intern — Cognifyz Technologies

Jun 2025 — Jul 2025

- Developed a e-commerce website end-to-end using MERN stack; featuring product catalog, search and filtering, shopping cart, wishlist, checkout, and an admin dashboard.

Full Stack Developer Intern — MaMo Technologies LLP

Dec 2024 — Jan 2025

- Translated Figma & sketch designs into responsive & intuitive web UI using React and TailwindCSS.

Projects

Ember — Dating Site

[Live Demo](#) | [GitHub](#)

- Implemented:** JWT authentication, swipe interface, like/pass system, mutual match detection, and real-time chat.
- Tech Stack:** TypeScript, React, Node.js, Express, MongoDB, Prisma, WebSockets, GitHub Actions, Docker

SmartHire — AI Interviewer

[Live Demo](#) | [GitHub](#)

- Implemented:** Role-based question generation, speech-to-text conversion, AI-based answer evaluation and scoring.
- Tech Stack:** React, Python, FastAPI, PostgreSQL, SQLAlchemy, GPT, Whisper

Education

B.Tech in Computer Science Engineering — GSFC University, Vadodara

2022 — 2026
